

**The Best Choice For Your Packaging Needs.**

We are manufacturer of PP/HDPE/BOPP/FIBC/Leno Bags/Shopping Bags/Pouches and many more.

**ISO: 9001 Certified | Having BIS registration for Sugar, Cement and Foodgrain Bags.**

## About Us

Injecto Polymers Limited started its manufacturing operations of PP/HDPE Fertilizer Bags, Sugar Bags, Cement Bags / Foodgrain Bags / Rice Bags/ Sand Bags / BOPP Bags /FIBC/ Leno Bags/Shopping Bags/Pouches etc. in 2018 with an installed capacity of 5200 MT per annum. In 2021 it doubled its installed capacity to 10400 MT per annum. The plant and machinery installed are of state of the art technology with strict quality control system. The Bag manufacturing capacity is 80 lac Bags per month. Presently, the company has been supplying to reputed companies all over India.

The entire plant has been constructed on land measuring 4.65 acre in 2 phases (Phase I & II). The plant is strategically located at industrial hub of Abujhati, Burdwan, West Bengal housing many industries. The plant is also in close proximity to Haldia Petrochemicals Limited (about 200 kms), one of the major manufacturers and suppliers of HDPE/PP granules in Eastern India. Additionally, it is located approximately 460 kms from IOC Paradeep. The distance of plant from kolkata is approx 70 kms.

The sole objective of IPL is to manufacture and supply "Polyolefin (PP/HDPE) based circular woven tape based sacks required by different industries such as Fertilizers, Cement, Foodgrains, Sugar, Textiles, Chemicals & Petrochemicals etc.

The company is managed professionally with **Sri Ramesh Kumar Rateria**, Managing Director at the helm of its affairs who has an experience of over 30 years in plastic industry. The other directors are **Sri Ashok Kumar Agarwal** who has over 35 years of experience in the relevant field and he looks after marketing with **Sri Rajat Rateria**, who has over 8 years' experience and is looking after procurement and purchase, **Sri Ramanshu Rateria** is responsible for accounts and taxation. The products of the company are well established due to their superior quality and the company is steadily expanding its area of operations. The company has a strong track record of completing orders on time and enjoys a good reputation among its customers for its commitment and quality.

The company has further expansion plans to increase its capacity from 14,000 MT to 21,500 MT in 2025. The expansion is expected to be completed by september 2025.

The company has acquired on lease the manufacturing facility of its associated company, adding approximately 3,600 MT per annum in 2024.

## Our Verticals

### RATERIA LAMINATORS PVT LTD

CONSIGNMENT STOCKIST OF GAIL INDIA LTD AND BRAHMAPUTRA CRACKERS & POLYMERS LTD.

### INJECTO POLYMERS LIMITED

MANUFACTURERS OF PP/ HDPE WOVEN SACKS & FABRICS

### MARUTI PACKAGERS PVT LTD

DEALERS & IMPORTERS OF ALL KINDS OF PLASTIC GRANULES

### HIND POLYFABS PVT LTD

DEALERS & IMPORTERS OF ALL KINDS OF PLASTIC GRANULES  
RECYCLERS OF PP/ PE WASTE & SCRAPS

### JUPAX VANIJYA PVT LTD

DEALERS AND IMPORTERS OF VIRGIN & REPROCESSED PLASTIC GRANULES

# Rateria

GROUP OF COMPANIES

We are the major importers of PP, HDPE, LDPE, LLDPE, PVC, EVA, SAN, PC, EVA, PS, Metallocene, Reprocess Granules, PET, Master Batches.

We imports from major Eastern India and major parts of world working with companies like

## Advancing Sustainability : Recycle and Reuse of Polymers

We specialize in the production and development of recycled plastic compounds, focusing on PP, PS, PC, PE, and ABS. With advanced production equipment and a standardized manufacturing process, we are dedicated to continuous improvement.

Our success is driven by:

- Innovative application programs.
- Skilled and dedicated human resources.
- Strategic international expansion.
- These factors position us as a key player in the recycled plastic compounds industry.
